Product versus process innovation: Implications for employment

overall process of structural change (Pasinetti, 1981). Moreover, sectoral specificities are related to country-specific institutions and policies, shaping the national system of innovation (Freeman, 1995). Innovation and employment A large literature has explored the impact of innovation on employment at the firm and sectoral levels.

INNOVATION AND EMPLOYMENT IN ECONOMIC CYCLES

In a static perspective, process innovations thus often have the potential to reduce employment, but there are also second- and third-order effects which may increase employment - so-called "compensation effects". The following sections address the immediate impacts of process innovation in different sectors.

Process Innovations and Employment : Innovation and

Innovation, Employment and Skills in Advanced and Developing Countries: A Survey of the Literature IZA DP No. 6291 January 2012 Marco Vivarelli. ... pointing out both the market mechanisms able to counterbalance the direct impact of process innovation and the job creating effects of product innovation.

Innovation, Employment and Skills in Advanced and

The relationship between innovation and employment dynamics is a key issue in economic theory. However, disentangling this nexus reveals to be particularly complex, both from a theoretical and an empirical perspective.

The Innovation-Employment nexus: a critical survey of

Innovation and Employment: A Survey According to the "compensation theory", market forces should assure a complete compensation of the initial labour-saving impact of process innovations. In this paper a critique of this approach is proposed through a detailed survey of the theoretical and empirical literature on the subject.
