

interpreting engineering drawings answers pdf

An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.

Walkthrough is an informal meeting for evaluation, usually no preparation is required for this. Inspection is a method that deserves careful consideration by any organization concerned with the quality of the product they ship.. It is a formalized method of improving a work product by continually measuring it against standards and requirements.

Writing systems are distinguished from other possible symbolic communication systems in that a writing

system is always associated with at least one spoken language. In contrast, visual representations such as drawings, paintings, and non-verbal items on maps, such as contour lines, are not language-related.

Writing system - Wikipedia

Also, remind students that the woman being interviewed or a family member or friend may help them write the answers to the questions. When the interviews are completed, allow class time for sharing. Discuss with the students the similarities and the differences they found between the lives of the women they interviewed and their own lives.
