Kenmore Ultra Wash Dishwasher won't run. I have a model 66513742K603 that a few days ago won't turn on. No panel lights show when closed. If I cut the power with the door open, and then close the door, it does something (motor sound) for about 2 minutes, then the "wash" light come on for about another minute, and then everything stops, with again, no panel lights.
