The State of the World's Land and Water Resources for Food and Agriculture This flagship report analyses a variety of options for overcoming constraints and improving resource management in areas of heightened risk.

### **Land & Water - Food and Agriculture Organization**

Land use practices vary considerably across the world. The United Nations' Food and Agriculture Organization Water Development Division explains that "Land use concerns the products and/or benefits obtained from use of the land as well as the land management actions (activities) carried out by humans to produce those products and benefits." As of the early 1990s, about 13% of the Earth was ...

1 | Page Land Use Planning society, through Introduction its territory, Land use planning is an essential tool for pollution prevention and control.

### **Land Use Planning - World Bank**

Land-use planning is the process of regulating the use of land in an effort to promote more desirable social and environmental outcomes as well as a more efficient use of resources. Goals of land-use planning may include environmental conservation, restraint of urban sprawl, minimization of transport costs, prevention of land-use conflicts, and a reduction in exposure to pollutants.
