

leadership and military training pdf

Leadership is both a research area and a practical skill encompassing the ability of an individual or organization to "lead" or guide other individuals, teams, or entire organizations. Specialist literature debates various viewpoints, contrasting Eastern and Western approaches to leadership, and also (within the West) United States versus European approaches.

Leadership - Wikipedia

Military education and training is a process which intends to establish and improve the capabilities of military personnel in their respective roles. It begins with recruit training, proceeds to education and training specific to military roles, and may also include additional training during a military career. Military training may be voluntary or compulsory duty.

Military education and training - Wikipedia

Reasonable people adapt themselves to the world. Unreasonable people attempt to adapt the world to themselves. All progress, therefore, depends on unreasonable people.
