A First Course in Linear Algebra is an introductory textbook designed for university sophomores and juniors. Typically such a student will have taken calculus, but this is not a prerequisite. The book begins with systems of linear equations, then covers matrix algebra, before taking up finite-dimensional vector spaces in full generality.

The bunkers were constructed of concrete, steel and iron and ranged in size from one- or two-person pillboxes with gun slits to large underground nuclear bomb shelters intended for use by the Party leadership and bureaucrats. The most common type of bunker is a small concrete dome set into the ground with a circular bottom extending downwards, just large enough for one or two people to stand ...
