Financialization is a term sometimes used to describe the development of financial capitalism during the period from 1980 until 2010, in which debt-to-equity ratios increased and financial services accounted for an increasing share of national income relative to other sectors.. Financialization describes an economic process by which exchange is facilitated through the intermediation of ...

Financialization - Wikipedia

In finance, a short sale (also known as a short, shorting, or going short) is the sale of an asset (securities or other financial instrument) that the seller does not own. The seller effects such a sale by borrowing the asset in order to deliver it to the buyer. Subsequently, the resulting short position is "covered" when the seller repurchases the asset in a market transaction and delivers the ...
