The strongest form of the theory is linguistic determinism, which holds that language entirely determines the range of cognitive processes. The hypothesis of linguistic determinism is now generally agreed to be false.

Linguistic relativity - Wikipedia

Definition. Linguicism is a bias against or discrimination of a person based on their language or language skills. This includes dialect, accent, native tongue, vocabulary size, and more. Linguistic imperialism is a form of linguicism, but it is an intentional form of discrimination for the benefit of ranting power to the dominating/oppresing language and its speakers.

Linguistic imperialism - Wikipedia

New Criticism. A literary movement that started in the late 1920s and 1930s and originated in reaction to traditional criticism that new critics saw as largely concerned with matters extraneous to the text, e.g., with the biography or psychology of the author or the work's relationship to literary history.
