GoDaddy, the world largest domain registrar, offers a wide range of different web hosting services. Hence it is very common for newbies to get confused between a domain name with a web hosting. To simplify. A domain name, is like the address of your home; web hosting on the other hand, is the space of your house where you place your furniture.

The "Deep Web" or "Invisible Web" is on the rise. Humans are curious by nature, and more and more internet users are going to the dark side. Everyone knows that the internet is a never-ending source of information, and search engines like Google, Yahoo and Bing can quench our thirst for information using just a few key words, with lists of information within seconds.
