Managing projects in developing countries edited by JW Cusworth & TR Franks<sup>1</sup> FS Lategan<sup>2</sup> The apparent inability of developers to establish successful development projects has often led to misconceptions of the value of such projects. This is mainly because of poor management and an inappropriate approach to establishment of the projects.

project and indicate the project management processes required for the project. Classification level one indicates that risk will play a very crucial role throughout the project development, planning, implementation, and closeout.

## **IT Project Management Practices Guide**

The usage of IT and the capacity of managing IT projects in developing countries are significantly far behind from that of developed countries. Realizing the benefits of using IT, developing countries have tried using it in different sectors but with a high failure rate. The microfinance sector in Bangladesh covers almost one-third of the ...

## **Open Research Online**

When designing a project, 90% of the work should go into project planning and development and only 10% in the writing of the application. This training is focused on how to do that 90%.
