"Management Essentials" is a course that's designed to help new and recently appointed managers better understand their role in leadership. Through this course you will find out exactly what you need to learn about managing teams, as well as whether you can recall the information at the end of each lesson, and how to apply this information to your specific situation.

The concept "extends well beyond sound and frequency into many disparate areas of math and even physics. It is crazy just how ubiquitous this idea is," notes the 3Blue1Brown video above, one of dozens of animated explorations of mathematical concepts. I know far more than I did yesterday thanks to this comprehensive animated lecture.
