The Portland Cement Association (PCA) has publications for designing rectangular and circular tanks. Some of the design provisions differ from that of the American Concrete Institute (ACI) specifications. Many in the industry use these PCA design concepts, so we will adapt them for our calculations as well.

Engineers designing conventional, rectangular, reinforced concrete, liquid containing structures (LCS) often rely on the Portland Cement Association's (PCA) publication, "Rectangular Concrete Tanks", to analyze two-way panels. Several scenarios that would benefit designers are not included in the publication.
