Quality Glossary Definition: Environmental Management Systems. An environmental management system, also known as an EMS, can be developed in compliance with the ISO 14001 standard as part of an organization's strategy to implement its environmental policy and address governmental regulations. An EMS focuses resources on meeting the commitments identified in the organization's policy.

William Edwards Deming (October 14, 1900 – December 20, 1993) was an American engineer, statistician, professor, author, lecturer, and management consultant. Educated initially as an electrical engineer and later specializing in mathematical physics, he helped develop the sampling techniques still used by the U.S. Department of the Census and the Bureau of Labor Statistics.
