In this section, we count the subsets of an n -element set. The counting numbers are the binomial coefficients, familiar objects but there are some new things to say about them. These will lead on to topics later in the notes. We begin with a simple observation. Proposition 1.1 The number of subsets of an n -element set is 2^n .

Combinatorics 1: The art of counting

My child likes tough and feel books. Art was pretty but some of the text was confusing. They ask you to count things but the touch spots do not match the numbers and is confusing for a young child to count. The touch pieces were basic and repeditive, like a single bow on multiple pages.
