Air pollution occurs when harmful or excessive quantities of substances including gases, particles, and biological molecules are introduced into Earth's atmosphere. It may cause diseases, allergies and even death to humans; it may also cause harm to other living organisms such as animals and food crops, and may damage the natural or built environment. ...

Historic preservation (US), heritage preservation or heritage conservation (UK), is an endeavour that seeks to preserve, conserve and protect buildings, objects, landscapes or other artifacts of historical significance. This term refers specifically to the preservation of the built environment, and not to preservation of, for example, primeval forests or wilderness.
