Virtual Reality | Time

Individuals often save money for future use or borrow money for current consumption. In order to determine the amount needed to invest (in case of saving) or the cost of borrowing, we need to understand the time value of money. Money has a time value, in that individuals place a higher value on a given amount, the earlier it is received. 2.

Virtual currency is distinguished from fiat currency (a.k.a. "real currency," "real money," or "national currency"), which is the coin and paper money of a country that is designated as its legal tender; circulates; and is customarily used and accepted as a medium of exchange in the issuing country. It is distinct from e-money,
