Royalties Online System for Western Australian mineral and petroleum producers to electronically prepare, lodge and view royalty returns and production reports. About Access; Interactive geological map (GeoVIEW.WA) An interactive, GIS-based mapping system. Construct your own geological map and incorporate other mineral and petroleum exploration datasets including mines and mineral deposits ...

### **Mines and mineral deposits (MINEDEX)**

Mining is the extraction of valuable minerals or other geological materials from the earth, usually from an orebody, lode, vein, seam, reef or placer deposit. These deposits form a mineralized package that is of economic interest to the miner. Ores recovered by mining include metals, coal, oil shale, gemstones, limestone, chalk, dimension stone, rock salt, potash, gravel, and clay.
