The Intel Management Engine (ME), also known as the Manageability Engine, is an autonomous subsystem
that has been incorporated in virtually all of Intel's processor chipsets since 2008. The subsystem primarily
consists of proprietary firmware running on a separate microprocessor that performs tasks during boot-up,
while the computer is running, and while it is asleep.

The static compression ratio of an internal combustion engine or external combustion engine is a value that represents the ratio of the volume of its combustion chamber from its largest capacity to its smallest capacity. It is a fundamental specification for many common combustion engines. In a piston engine, it is the ratio between the volume of the cylinder and combustion chamber when the ...
