Global politics include different practices of political globalization in relation to questions of social power: from global patterns of governance to issues of globalizing conflict. The 20th century witnessed the outcome of two world wars and not only the rise and fall of the Third Reich but also the rise and relative fall of communism.

Politics is a work of political philosophy by Aristotle, a 4th-century BC Greek philosopher. The end of the Nicomachean Ethics declared that the inquiry into ethics necessarily follows into politics, and the two works are frequently considered to be parts of a larger treatise, or perhaps connected lectures, dealing with the "philosophy of human affairs". The title of the Politics literally means "the things concerning the polis".

politics, the compound should always be resolved into the simple elements or least parts of the whole. We must therefore look at the elements of which the state is composed, in order that we may see in what the different kinds of rule differ from one another, and whether any scientific result can be attained about each one of them.
